How Does the Deficit Reduction Act of 2005 Affect My Ability to Give Away My Assets?

- ❖ Any assets “gifted” away are subject to being a “countable asset” in determining Medicaid eligibility* if made less than 5 years ago
- ❖ The “Look Back” rule has been extended from 36 months to 60 months
- ❖ Any paid-up life insurance policy must be redeemed and used to pay for your expenses before you can qualify for Medicaid
- ❖ One of the best legal ways to preserve assets (money) to pay for your final expenses is by placing up to \$12,500 into an Irrevocable Funeral Trust

Why is an IFT a Better Choice than Pre-Paid Funeral Expenses in a Funeral Home?

- ❖ **Safety & Security** – you can be 100% certain that all the monies placed into your IFT will be available when needed to pay for your final expenses
- ❖ **Portability** – you are not obligated to use a specific funeral home to provide for your final ceremonies (snowbirds take notice)
- ❖ **Flexibility** – you are not obligated to spend all of a pre-set amount for your final expenses. Any excess will go back to your estate.
- ❖ **Instant Availability** – in the event that your assets are tied up in non-liquid investments, monies will be available for your final expenses
